Press Release, for immediate release

Climex welcomes 100th member

Environmental Exchange Climex today welcomed the 100th member (Mitsui & Co Energy Risk Management Ltd) and number 101 (ecosur) was also registered today. Since July 2008, Atlas Capital, BTS Energy Advisors, Carbon Retirement Ltd, Carbon TF, Ecosecurities, Ecolutions, Kas Energy BV and Wagenplan all became members of Climex. Over 15 companies are currently in the signing up process.

“We are all very pleased with this exciting achievement,” says Axel Posthumus, CEO of Climex. “Three years ago we started at zero and now we have over 100 members! We had not expected to reach this number in such a short period of time, because many countries have still not allocated EUAs in the Registry Accounts of the Compliance Companies. The volumes on the EUA Spot Market are therefore still limited, but growing. As a good alternative we were fortunate to be able to offer CER Spot Trading via the Swiss Registry since the start of the second phase of the EU ETS, which made it worthwhile for companies interested in CERs to register. We would very much like to thank these and our other members for joining and trading with us.”
